MEMORANDUM FOR THE RECORD

SUBJECT: 7 December 1954 Briefing of the Task Force  
for Intelligence Activities.

25X1A

1. Today's briefing by the [redacted] Division was the kickoff for the Area Division Briefings. Colonel Lane started the day with a subject which evidently is causing him some concern. He stated, "I now realize that there is no U.S. National Policy for Cold War and the only directives under which you operate are your broad Charter (NSCID-5 and NSC 5412) and the combination of existing NSC's on various areas. The first thing I want to know is this: Do you people at this level here in the operating division feel that you have sufficient interpretation of policy to give you guidance which is specific enough for you to operate under? I want to be assured above all that you people have sufficient instruction and guidance." At this point, [redacted] stated that for the most part we do have guidance which is specific enough and added that the interpretations of NSC reports emanating from the [redacted] Staff were well done and provided the Division with guidance. Colonel Lane then stated, "We've got the job of trying to evaluate the effectiveness of CIA's operations from the point of view of U.S. National Policy as well as from a common sense point of view, and I feel that the one thing we direly need is an over-all U.S. National Policy for Cold War."

25X1A

25X1A

25X1C

2. True to form, Colonel Lane was principally interested in large projects, [redacted] operation; large overseas organizations, [redacted] personnel morale and possibilities of duplication. With respect to headquarters organization Colonel Lane attempted to elicit personal opinions on Staff-Division relationships and problems involved.

25X1A

3. Colonel Lane requested a breakdown of the [redacted] Division along with personnel figures. In my opinion Colonel Lane was

particularly impressed with the new organizational structure of the [REDACTED] Division and was pleased to learn that other Divisions are studying it with a view toward determining whether it could be incorporated into their own structure in an effort to streamline the organization.
